WE SUPPORT EDUCATIONAL INNOVATION AND EXCELLENCE!

OUR MISSION

The D91 Education Foundation, founded in 2014, was created by parents as a result of the D91 Strategic Plan. The amounts of state and federal funding are typically unknown from year to year, and local funding is contingent upon property values in the district. This creates an environment of uncertainty when it comes to funding the education of our children.

Our mission is simple: **to support educational needs and initiatives of Kelvin and Milne Grove Schools.**
